

'Circle, Triangle, Square' Exit Slip

Circle: Draw a circle and write or draw something within it representative of something going on in your mind right now

Triangle: Draw a triangle and write or draw three things within it representative of what you learned today

Square: Draw a square and record by writing or drawing something you agree with or believe (i.e. something that 'squares' with you)

Alternatively this may be done via word processor or recorded as a VoiceThread. If written, this should be about $\frac{1}{2}$ page double spaced. If recorded, this should last 60-90 seconds. I look forward to seeing and hearing your work!
